Subject: Approval of Amended Notice of Intention to Commence Large Mining Operations and Reclamation Surety, Sunroc Corporation, Chicken Creek East Mine, M/023/016, Task ID# 1473, County, Utah

Dear Mr. Christofferson:

The Division has received the reclamation surety for the amendment to the Chicken Creek Mine and two copies of this amendment. The Division now permits you to begin mining operations as outlined in your amendment. We will forward a copy of the executed documents to the U S Forest Service for their records. The surety will be reviewed periodically to assure that the bond remains adequate.

Enclosed are copies of the signed and executed Reclamation Contract and surety bond forms for your files. Also enclosed is a copy of the "approved" amendment for your files. If in the future, you wish to modify your mining and reclamation plan, please furnish a redlined and strikeout version of the page(s) you wish to change and indicate how these are to be incorporated into the current approved plan using Form MR-REV-att, which is located on the web at www.dogm.utah.gov. When the changes reach final approval, a clean version of the pages will need to be submitted to be incorporated into the approved plan.

Thank you for your help and patience in finalizing this permitting action. Please call me if you have any questions in this regard.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
